

As of 1 July 2009

The Norwegian Maritime Directorate
will no longer physically
measure vessels
less than 15 meters
of length

The vessels' measurements are insted to be documented to NOR
upon registration

The MEASUREMENTS

are to be documented by submission of one or more of the following:

- Builder's Certificate from the producer
- Approved CE-documentation
NB! Must be produced for all pleasure vessels subject to CE-marking- see information below
- Declaration from the producer
- Other equivalent documentation which the Registrar finds adequate (i.e. general arrangement drawings)

Registration is conditional upon documented vessel dimensions

In specific cases NOR may, on behalf of the owner, request the Norwegian Maritime Directorate to measure the vessel for registration purposes

Kindly note that owners of smaller work boats are personally responsible for acquiring necessary certificates from The Norwegian Maritime Directorate, www.sdir.no

CE-MARKING APPLIES TO:

- Vessels placed on the EEA-market after 16 June 1998
- Engines placed on the EEA-market after 1 January 2006

Kindly note that "Documents of Compliance" will be required sent to the Ship Registers for vessels and engines bound for CE-marking. The documents will be used for control of a vessel's measurements, identification of the vessel as well to ensure that the necessary documentation exists.

The Norwegian Maritime Directorate is, however, still the regulatory authority for pleasure vessels with belonging CE-documentation. Kindly direct all enquires regarding CE-marking etc. to the Norwegian Maritime Directorate

CALL SIGNS/ RADIO CALL SIGNS

Vessels without a call sign will be allocated one upon receipt of Notification for Registration, KR-0012

The form updated as of June 2009 must always be used

For swift assignment of call sign please forward the Notification for Registration to post@nis-nor.no and thereafter by regular mail accompanied by other, necessary, documentation

As of 1 July 2009 Radio Call Signs allocated by Telenor Maritime Radio may be used for registration in NOR

Please be informed that vessels are not registered based solely upon documented measurements

For complete view of registration requirements, see separate leaflet
